

# pressto™

## wide panel base

Ideal for quick installation and last minute displays, this innovative free-standing product is used with panels to create eye-catching signage, advertising, and other decorative floor elements.

**Features:**

- Heavy duty anodized aluminum construction
- Holds material 0.039" - 1.18". Substrates are up to 5' height
- Installation method: Knurled head screw offers maximum flexibility to safely open and close the profile and secure the display or sign
- Integrated rubber laces protect the panel and act as an anti-slip pad for secure mounting
- Application: indoor

**Packaging:**

Sold as "each".  
Kit includes: bottom base, knurled tightening knob and rubber lace.  
Assembly instructions.
