## suspension cable systems

This system offers a convenient solution for suspended ceiling mounted signage in compliance with interior design requirements. System is ready to accept your signage or display substrate. No holes required in signage substrate.

**Features:**

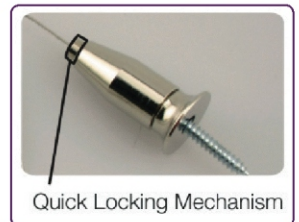

- Material: stainless steel
- Hand adjustable quick locking cable mechanism
- Application: indoor
- Recommended load per piece: 10 lbs / 4 kg

**Packaging:**

Mounting clip system.  
Substrate grips.  
Steel cable.  
Systems sets of 2.

**Assembly:**

Press on the raised area of the screw component to adjust the cable to the desired length. This allows for easy adjustments of the cable length modification without the use of an allen or hex head set screw.

**Cable System B - top**

**STD-CBB-T24**  
Cable Length - 24"  
Cable - .030"  
Finish - Silver

Recommended gauge of material for suspension - 1/8" - 1/4"

**Cable System C - side**

**STD-CBC-S24**  
Cable Length - 24"  
Cable - .030"  
Finish - Silver

Recommended gauge of material for suspension - 1/8" - 1/4"

**Cable System E - top**

**STD-CBE-T24**  
Cable Length - 24"  
Cable - .050"  
Finish - Silver

Recommended gauge of material for suspension - 1/4" - 3/8"
